Plant-tone is a complete plant food. It contains all the essential plant nutrients.

The Espoma Co. • 6 Espoma Rd. • Millville, NJ 08332

## Directions

1 pound equals approx. 3 cupfuls

### Flower Beds:

Mix Plant-tone into the top four or five inches of soil at a rate of 4 lbs. per 100 sq. ft. (or 1/2 cup per plant) An additional feeding of 1/4 cup can be made once a month after the plants are well established.

### Bulbs:

Place one heaping teaspoonful of Plant-tone beneath bulb and mix thoroughly with soil. Feed established beds at a rate of 4 lbs. per 100 square feet (or 1 cup per 10 sq. ft..

### Roses:

When planting, mix 1 cupful of Plant-tone with soil at the bottom of hole and 1 cupful with soil used to refill hole. For established plants, apply 1 cupful evenly on soil around plant and work lightly into top 1 inch of soil. Repeat monthly during summer months.

### Shrubs:

When planting, mix 1 cupful with soil in the bottom of the hole and 1 cupful with the soil used to refill the hole. Feed established shrubs with 1 cupful per foot of branch spread.

### Vegetables:

When preparing garden, apply 40 lbs. of Plant-tone per 1,000 sq. ft. and work into the top 4 to 5 inches of soil (or 1 cup per 10 sq. ft.). For individual plantings, add 2 tablespoons per vegetable. Apply at same rate once a month during growing season.
